## PROFESSIONAL SUMMARY

I am a third-semester student majoring in Computer Engineering with a GPA of 3.62. I study at Pamulang University with a focus on Data Analysis. I have expertise in examining, cleaning, and modeling data to generate useful information and support accurate decision-making.

---

## WORK EXPERIENCE

### Analysis of Tasks During University

Jan 2024

- Creating data visualizations with Tableau and Matplotlib for presentations and seminars.
- Creating charts and interactive dashboards to effectively convey research results.
- Taught classmates how to create charts using Python programming in a Computer Graphics course.

### Independent Data Analysis Project

Sep 2023 - Present

- Analyzing retail datasets to identify sales trends, seasonal patterns, and customer behavior.
- Using Excel and Python (Pandas, Matplotlib) for data cleaning, descriptive analysis, and visualization.
- Creating interactive dashboards in Tableau to display sales data, product trends, and regional performance.
- Using SQL to gather and integrate data from various sources into an analytical database.

### Data Analyst Bootcamps

Oct 2023 - Nov 2023

- Successfully completed a bootcamp at Dicoding Indonesia with a focus on machine learning.
  - Successfully completed intermediate courses in Python, SQL, and C++ on SoloLearn.
- 

## EDUCATION

### Pamulang University

July 2023 - Present

#### Data Analyst Specialist

- Manipulating data.
- Visualizing data
- Analyzing data

### Vocational High School Diploma

April 2016 - April 2019

- Expertise in Electrical Engineering
  - Expertise in Vehicle Mechanics
- 

## ADDITIONAL INFORMATION

- **Analyst Skills:** Excel, Tableau, Python, SQL
- **Languages:** English, Indonesia
- **Certifications:** Machine Learning Certification from Dicoding, Intermediate Python, SQL and C++
- **Awards/Activities:** Achieved a score of 95 in Computer Graphics for analyzing sales and creating charts.
